

## Dog with Ruptured Ligaments and Deep Leg Wounds

BEFORE

AFTER 30 DAYS

Information displayed is provided by our customers. Vetericyn is a great addition to any wound care regimen. Always consult with a veterinarian for systemic conditions.

<b>Owner Name:</b>	Jennifer Gibbons
<b>Patient:</b>	Jewels 4 years old Breed: Great Pyrenees
<b>Wound/Ailment:</b> <small>(infection, culture results)</small>	A post surgical incision turned into a deep wound on the back of her leg. The incision drained profusely and the wound would not remain closed with the application of stitches or staples.  After a second surgery to repair another ruptured ligament, Jewels contracted a staph infection.
<b>Vetericyn Product:</b>	Wound & Infection Care (Liquid)
<b>Application:</b> <small>(initial usage, current usage, protocol)</small>	Applied Vetericyn directly to wound site during each bandage change (minimum 2x a week)
<b>Healing Period:</b>	About 30 days
<b>Owner Comments:</b>	"I love this product. I really believe it has made a huge difference in the healing time. She'll be watching over the cows again in no time. Thank you for your product!"  Jennifer Gibbons

## Immediate Acting, One-Step Wound & Infection Care

Vetericyn animal wellness products are innovative topical solutions for the care of wounds, infections and irritations caused by bacteria, viruses, fungi or spores. This steroid-free, antibiotic-free, no-rinse solution is non-toxic. Made up of compounds similar to those produced by the animal's own immune system, Vetericyn will not harm healthy tissue. Vetericyn products are manufactured within an appropriate physiological pH range so they will not sting when applied. This product, in solution, kills 99.999% of bacteria, viruses, fungi and spores including E.coli, Staph (MRSA), Strep, Moraxella bovis, Pasteurella, Actinomyces and Pseudomonas aeruginosa. Tests free for competitive animals.
