

Horse With Dryland Distemper Outbreak (Pigeon Fever)*

BEFORE

AFTER 30 DAYS

Information displayed is provided by our customers. Vetericyn is a great addition to any wound care regimen. Always consult with a veterinarian for systemic conditions. *Vetericyn cares for the secondary infections caused by Dryland Distemper. In this case, Vetericyn was used in conjunction with one round of antibiotics.

Trainer/Owner:	Jauni Badger
Training Center:	Badger Training Center
Patient:	Super High Noon 2008 ABRA World Champion Halter Aged Stallion 2008 IBRA Reserve World Champion Stallion.
Wound/Ailment:	Dryland Distemper (Pigeon Fever).
Vetericyn Product:	Equine Wound & Infection Care (pn 1000-16oz)
Application: (initial usage, current usage, protocol)	Vetericyn administered 4 times per day for days 1-15, 2 times per day for days 16-30. 1 Round SMZ antibiotic administered on first day of treatment
Healing Period:	30 days
Trainer Comments:	"We started using Vetericyn February 8, 2009, on the jowl of this stallion that had a grapefruit sized abscess compromising the inner workings of his jaw. You could actually see into the jaw and he was losing a lot of saliva through the wound. All the tissue inside of the jaw was compromised. Within 30 days of using Vetericyn it basically healed with a small scab."

Immediate Acting, One-Step Wound & Infection Care

Vetericyn animal wellness products are innovative topical solutions for the care of wounds, infections and irritations caused by bacteria, viruses, fungi or spores. This steroid-free, antibiotic-free, no-rinse solution is non-toxic. Made up of compounds similar to those produced by the animal's own immune system, Vetericyn will not harm healthy tissue. Vetericyn products are manufactured within an appropriate physiological pH range so they will not sting when applied. This product, in solution, kills 99.999% of bacteria, viruses, fungi and spores including E.coli, Staph (MRSA), Strep, Moraxella bovis, Pasteurella, Actinomyces and Pseudomonas aeruginosa. Tests free for competitive animals.
