

### Horse with Puncture/Tear Wound on the Hind Quarter

DAY 1

14 DAYS

AFTER 30 DAYS

Information displayed is provided by our customers. Vetericyn is a great addition to any wound care regimen. Always consult with a veterinarian for systemic conditions.

<b>Owner:</b>	Cindi Fannon
<b>Patient:</b>	Bonnie – APHA Mare, 10 years old
<b>Wound/Ailment:</b>	Puncture/tear wound on the hind quarter
<b>Vetericyn Product:</b>	Vetericyn Wound & Infection HydroGel (pn 1040); Vetericyn Wound & Infection Care (pn 1000)
<b>Application:</b> (initial usage, current usage, protocol)	Irrigated with Vetericyn Spray and then applied Vetericyn Wound & Infection HydroGel.
<b>Healing Period:</b>	9/15/2011 – 10/15/2011
<b>Owner Comments:</b>	<p>“The top 12 inches were stitched together by the vet, 9/15/2011 a few hours after the initial injury. The bottom was left open with a 3 inch round, 4 inch deep hole for drainage.</p> <p>All I can say is WOW to Vetericyn; we’re just so happy with the results.”</p> <p>Cindi Fannon</p>

### Immediate Acting, One-Step Wound & Infection Care

Vetericyn animal wellness products are innovative topical solutions for the care of wounds, infections and irritations caused by bacteria, viruses, fungi or spores. This steroid-free, antibiotic-free, no-rinse solution is non-toxic. Made up of compounds similar to those produced by the animal's own immune system, Vetericyn will not harm healthy tissue. Vetericyn products are manufactured within an appropriate physiological pH range so they will not sting when applied. This product, in solution, kills 99.999% of bacteria, viruses, fungi and spores including E.coli, Staph (MRSA), Strep, Moraxella bovis, Pasteurella, Actinomyces and Pseudomonas aeruginosa. Tests free for competitive animals.
