

Vetericyn®

**Immediate-Acting, One Step,
Animal Wellness Products**

Safe & Effective Animal Wellness Products

We are excited to offer Vetericyn® products for the care of your animal's topical wounds and infections. From your home to the farm or ranch, Vetericyn makes caring for your animals simple and easy. Our products are non-toxic and will not sting when applied, plus, there is no rinsing or messy clean-up. Just spray Vetericyn on the wound, site of infection or irritation.

Our customers have seen amazing results (see our website and testimonials within this brochure). We are confident you will see similar results when you use Vetericyn.

Testimonials Real results from real users:

In some cases (listed above), Vetericyn was used in conjunction with antibiotics. Information displayed is provided by our customers.

Vetericyn is a great addition to any wound care regimen. Always consult with a veterinarian for systemic conditions.

*Vetericyn cares for the secondary infections caused by Dryland Distemper.

**Use for the care of wounds caused by mange. In the case of mange, a treatment to kill the mites is still required.
