

# SET EXPECTATIONS **HIGHER**

**SUPERIOR  
PERFORMANCE.  
BETTER OUTCOMES.**

Vetericyn® VF Plus is a next-generation wound and skin care solution designed to improve all phases of wound healing. This pH-balanced solution is used for cleansing, irrigating and debriding wounds, which sets the stage for optimum healing conditions and provides an advanced alternative to saline solution. Compatible with the natural hypochlorous produced by the animal's neutrophils, Vetericyn® VF Plus is as safe as it is powerful.

Evidence-based solutions for wound care and dermatology  
—with **Advanced Hypochlorous Technology.**

## VETERICYN® VF PLUS PRODUCT LINE

### Wound & Skin Care Liquid

Vetericyn® VF Plus liquid solution with hypochlorous technology is an advanced alternative to saline. Used for cleansing, irrigating, and debriding wounds, Vetericyn® VF Plus sets the stage for optimum healing conditions. In addition, the liquid solution is an excellent choice for moistening and irrigating wound dressings.

### Wound & Skin Care Hydrogel

Vetericyn® VF Plus hydrogel is designed to adhere to the site of application, allowing this advanced hypochlorous formula to penetrate the wound bed. This unique hydrogel does not cause dermal irritation and is safe for use in sensitive areas. Vetericyn® VF Plus hydrogel has proven itself to be an excellent post-surgical wound care solution for dispensing to patients.

### Otic Care

Vetericyn® VF Plus Otic cleanser uses hypochlorous technology to properly clean and debride the outer ear and canal of dirt and debris buildup that commonly causes ear ailments. As with all Vetericyn® VF Plus products, it is completely safe if licked or ingested.

### Ophthalmic Care

The Vetericyn® VF Plus Ophthalmic solution is specially formulated and tested for use in and around the eye. Ocular irritation studies prove Vetericyn® VF Plus to be completely safe, helping alleviate irritation and remove foreign debris without stinging or discomfort to the animal.
